SERVICE AWARDS
1956-57

A Meeting of Friends

Membership in the Service Award Clubs, on this seventeenth anniversary of the plan, is 1091 as compared with the membership of 649 when the plan was inaugurated in 1940. This constitutes approximately 43% of the total number of employees in the Company.

Years of service for each employee as indicated in the booklet are computed through May 31, 1957.

*Greetings to
Service Award Club Members*

THE year just passed has been one of substantial progress for our Company.

We are embarked upon construction of new plant at a rate more than double that required at any previous time. I believe we are continuing, also, to make solid improvement in our organization — helping each other to become better informed and trained for our present jobs, as well as those which most surely lie ahead.

Thank you, Service Club members, for your cooperation and help. I feel that each of you may well feel a personal pride in his contribution to our record.

Roy Nelson
